Tel: (630)682 - 4600  
Fax: (630)681 - 9100

**Product Name**

**Normal Saline I. V. Flush Syringe, USP and  
Sodium Chloride Injection, USP, 0.9%**

**Statement of Hazard:**

Non-hazardous in accordance with international standards for workplace safety.

The Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard (29CFR1910.1200) requires manufacturers to prepare safety data sheets for chemical products that are considered "hazardous" according to the regulation. For a chemical or formulation to be hazardous, it must present either a physical hazard or health hazard. The products above identifies that do not meet OSHA's "hazardous" chemical classification and do not required a Safety Data Sheet.
